EXPERIMENTER

VOLUME 38

JANUARY through DECEMBER 1964

INDEX BY TITLE

AC Power Supply for the Vibration Meter (July)

Analyzer has 3 Bandwidths, 80-DB Dynamic Range, New Wave (Arnold Peterson: April)

Antenna Patterns, Automatic Plotting of (May)

Audio Generator, A New 200-VA (R. G. Fulks: January)

Automatic Plotting of Antenna Patterns (May)

Bolton Plant, GR'S New (February)

Bridge Assembly for Precision Inductance Measurement (June)

Bridge Measurements, Convenient Generator-Detector Unit for (June)

Bridge to Teraohm Territory, A (Henry P. Hall: July)

Calibrator for the WE 640AA and other Microphones, A Reciprocity (December)

Capacitance Bridge, the Precise Measurement of Small Dimensions by A (A. E. Sanderson & F. Van Veen: February)

Coaxial Connectors at DC (January)

Coaxial U-Line Section (July)

Coherent Decade Frequency Synthesizers (Atherton Noyes, Jr.: September)

Compact, Inexpensive Sound-Level Meter, A (W. R. Kundert: October-November)

Convenient Generator-Detector Unit for Bridge Measurements (June)

Counter, New, One-Megacycle (December)

Counter, 400-KC Solid-State (R. W. Frank: August)

Decade Resistors, New 6-Dial (December)

Digital Time and Frequency Meter, Increased Frequency Range for the Type 1151-A (August)

Eastham, Melville (June)

Electronic Instrument Manufacturers' Exhibit (September)

Generator, A New 200-VA Audio (R. G. Fulks: January)

Generator-Detector Unit for Bridge Measurements, Convenient (June)

Generator of AC Transients, A (J. K. Skilling: May)

Greece, New GRO Representative for (January)

GR's New Bolton Plant (February)

IEEE — 1964 (March)

Improved Performance from the Unit Pulse Generator (R. W. Frank: December)

Increased Frequency Range for the Type 1151-A Digital Time and Frequency Meter (August)

Inductance Measurement, Bridge Assembly for Precision (June)

Inexpensive Variac® Autotransformer Lighting Control (Fred B. Otto: June)

Lighting Control, Inexpensive Variac® Autotransformer (Fred B. Otto: June)

Low-Distortion Oscillator (May)
Measurement of Small Dimensions by a Capacitance Bridge, the Precise (A. E. Sanderson & F. Van Veen: February)
Measurements on Power Transistors with the Transfer-Function Bridge (February)
Melville Eastham (June)
New GRO Representative for Greece (January)
New, Megohm, Wire-Wound Resistors and Decades (February)
New Members of the GR900 Family (August)
New Metered Variac® Autotransformer (October-November)
New One-Megacycle Counter (December)
New 6-Dial Decade Resistors (December)
New Talents for the Graphic Level Recorder (Martin W. Basch: September)
New 200-VA Audio Generator, A (R. G. Fulks: January)
New Wave Analyzer has 3 Bandwidths, 80-DB Dynamic Range (Arnold Peterson: April)
Operation of Variac® Autotransformers on 208/120-Volt Line (January)
Oscillator, Low-Distortion (May)
Oscillators, the Stability of Standard-Frequency (H. P. Stratemeyer: June)
Oscillator, the Type 1360-B Microwave (G. P. McCouch: August)
Papers Sought for Conference on Automotive Electrical and Electronics Engineering (June)
Power Supply for the Vibration Meter, AC (July)
Power Transistors with the Transfer-Function Bridge, Measurements on (February)
Precise Measurement of Small Dimensions by a Capacitance Bridge, the (A. E. Sanderson and F. Van Veen: February)
Precision Capacitor with Low Terminal Capacitances, A Three-Terminal (August)
Pulse Generator, Improved Performance from the Unit (R. W. Frank: December)
Random Noise, Useful Formulas, Tables, and Curves for (April)
Reciprocity Calibrator for the WE 640AA and other Microphones, A (December)
Recorder, New Talents for the Graphic Level (Martin W. Basch: September)
Reprints (January)
Resistors and Decades, New, Megohm, Wire-Wound (February)
Resistors, New 6-Dial Decade (December)
Sound-Level Meter, A Compact, Inexpensive (W. R. Kundert: October-November)
Stability of Standard-Frequency Oscillators, The (H. P. Stratemeyer: June)
Standard-Frequency Oscillators, The Stability of (H. P. Stratemeyer: June)
Synthesizers, Coherent Decade Frequency (Atherton Noyes, Jr.: September)
Three-Terminal Precision Capacitor with Low Terminal Capacitances, A (August)
Tone-Burst Generator, Relay-Rack Mount for the (July)
Transfer-Function Bridge, Measurements on Power Transistors with the (February)
Type 1360-B Microwave Oscillator, The (G. P. McCouch: August)
Useful Formulas, Tables, and Curves for Random Noise (April)
Variac® Autotransformer Lighting Control, Inexpensive (Fred B. Otto: June)
Variac® Autotransformer, New Metered (October-November)
Variac® Autotransformers on 208/120-Volt Line, Operation of (January)
Vibration Meter, AC Power Supply for the (July)
Wescon 1964 (August)

INDEX BY AUTHOR

Basch, Martin W.
New Talents for the Graphic Level Recorder (September)

Frank, R. W.
Improved Performance from the Unit Pulse Generator (December)
400-kc Solid-State Counter (August)

Fulks, R. G.
A New 200-VA Audio Generator (January)

Hall, Henry P.
A Bridge to Teraohm Territory (July)

Kundert, W. R.
A Compact, Inexpensive Sound-Level Meter (October-November)

McCOUCH, G. P.
The Type 1360-B Microwave Oscillator (August)

NOYES, ATHERTON, JR.
Coherent Decade Frequency Synthesizers (September)

OTTO, FRED B.
Inexpensive VARIAC® autotransformer Lighting Control (June)

PETERSON, ARNOLD
New Wave Analyzer has 3 Bandwidths, 80-DB Dynamic Range (April)

SANDERSON, A. E. AND VAN VEEN, F.
The Precise Measurement of Small Dimensions by a Capacitance Bridge (February)

SKILLING, J. K.
A Generator of AC Transients (May)

STRATEMEYER, H. P.
The Stability of Standard-Frequency Oscillators (June)

VAN VEEN, F. AND SANDERSON, A. E.
The Precise Measurement of Small Dimensions by a Capacitance Bridge (February)

UNSIGNED
AC Power Supply for the Vibration Meter (July)

Alabama, Georgia Added to Florida Office Territory (October-November)

A Reciprocity Calibrator for the WE 640AA and Other Microphones (December)

A Three-Terminal Precision Capacitor with Low Terminal Capacitances (August)

Automatic Plotting of Antenna Patterns (May)

Bridge Assembly for Precision Inductance Measurement (June)

Coaxial Connectors at DC (January)

Coaxial U-Line Section (July)

Convenient Generator-Detector Unit for Bridge Measurements (June)

Electronic-Instrument Manufacturers' Exhibit (September)

GR's New Bolton Plant (February)

IEEE — 1964, Five New for '64 (March)

Increased Frequency Range for the Type 1151-A Digital Time and Frequency Meter (August)

Low-Distortion Oscillator (May)

Measurements on Power Transistors with the Transfer-Function Bridge (February)

Melville Eastham (June)

NEREM (October-November)

New GRO Representative for Greece (January)

New, Megohm, Wire-Wound Resistors and Decades (February)

New Members of the GR900 Family (August)

New Metered VARIAC® autotransformers (October-November)

New One-Megacycle Counter (December)

New 6-Dial Decade Resistors (December)

Operation of VARIAC® autotransformers on 208/120-Volt Lines (January)

Papers Sought for Conference on Automotive Electrical and Electronics Engineering (June)

Philadelphia Office Moves (October-November)

Relay-Rack Mount for the Tone-Burst Generator (July)

Type 1123-A Digital Syncronometer (August)

Type 1680-A Automatic Capacitance Bridge Assembly (August)

Useful Formulas, Tables, and Curves for Random Noise (April)

INDEX BY TYPE NUMBER

TYPE 500-Y RESISTORS
New, Megohm, Wire-Wound Resistors and Decades (February)

TYPE 510-H DECADE RESISTANCE UNIT
New, Megohm, Wire-Wound Resistors and Decades (February)

TYPE 874 COAXIAL CONNECTORS
Coaxial Connectors at DC (January)

TYPE 900-LZ REFERENCE AIR LINE
New Members of the GR900 Family (August)

TYPE 900-Q ADAPTORS
New Members of the GR900 Family (August)

TYPE 900-TUA TUNER
New Members of the GR900 Family (August)

TYPE 900-WNC AND WNE SHORT-CIRCUIT TERMINATIONS
New Members of the GR900 Family (August)

TYPE 1115-B STANDARD-FREQUENCY OSCILLATOR
The Stability of Standard-Frequency Oscillators (H. P. Stratemeyer: June)

TYPE 1123-A DIGITAL SYNCROMETER
WESCON 1964 (August)

TYPE 1150-B DIGITAL FREQUENCY METER
400-kc Solid-State Counter (R. W. Frank: August)

TYPE 1150-BH DIGITAL FREQUENCY METER
New One-Megacycle Counter (December)

TYPE 1151-A DIGITAL TIME AND FREQUENCY METER
Increased Frequency Range for the Type 1151-A Digital Time and Frequency Meter (August)

TYPE 1161-A COHERENT DECADE FREQUENCY SYNTHESIZER
Coherent Decade Frequency Synthesizers (Atherton Noyes, Jr.: September)

TYPE 1162-A COHERENT DECADE FREQUENCY SYNTHESIZER
Coherent Decade Frequency Synthesizers (Atherton Noyes, Jr.: September)

TYPE 1216-A UNIT I-F AMPLIFIER
Measurements on Power Transistors with the Transfer-Function Bridge (February)

TYPE 1217-C UNIT PULSE GENERATOR
Improved Performance from the Unit Pulse Generator (R. W. Frank: December)

TYPE 1240-A BRIDGE OSCILLATOR-DETECTOR
Convenient Generator-Detector Unit for Bridge Measurements (June)

TYPE 1262-C POWER SUPPLY
AC Power Supply for the Vibration Meter (July)

TYPE 1301-A LOW-DISTORTION OSCILLATOR
Low-Distortion Oscillator (May)

TYPE 1308-A AUDIO OSCILLATOR
A New 200-VA Audio Generator (R. G. Fulks: January)

TYPE 1350-A GENERATOR-RECORDER ASSEMBLY
New Talents for the Graphic-Level Recorder (Martin W. Basch: September)

TYPE 1360-B MICROWAVE OSCILLATOR
Type 1360-B Microwave Oscillator (G. P. McCouch: August)

TYPE 1396-A TONE-BURST GENERATOR
A Generator of AC Transients (J. K. Skilling: May)
Relay-Rack Mount for the Tone-Burst Generator (July)

TYPE 1422-CL PRECISION CAPACITOR
A Three-Terminal Precision Capacitor with Low Terminal Capacitances (August)

TYPE 1432 DECADE RESISTORS
New 6-Dial Decade Resistors (December)

TYPE 1432-Z DECADE RESISTOR
New, Megohm, Wire-Wound Resistors and Decades (February)

TYPE 1521-A GRAPHIC LEVEL RECORDER
Automatic Plotting of Antenna Patterns (May)

TYPE 1521-B GRAPHIC LEVEL RECORDER
New Talents for the Graphic Level Recorder (Martin W. Basch: September)

TYPE 1559-B MICROPHONE RECIPROCITY CALIBRATOR
A Reciprocity Calibrator for the WE 640AA and Other Microphones (December)

TYPE 1565-A SOUND-LEVEL METER
A Compact, Inexpensive Sound-Level Meter (W. R. Kundert: October-November)

TYPE 1607-A TRANSFER-FUNCTION AND IMMITANCE BRIDGE
Measurements on Power Transistors with the Transfer-Function Bridge (February)

TYPE 1615-A PRECISION CAPACITANCE BRIDGE
The Precise Measurement of Small Dimensions by a Capacitance Bridge (A. E. Sanderson and F. Van Veen: February)

TYPE 1632-A INDUCTANCE BRIDGE
Bridge Assembly for Precision Inductance Measurement (June)

TYPE 1644-A MEGOHM BRIDGE
A Bridge to Teraohm Territory (Henry P. Hall: July)

TYPE 1680-A AUTOMATIC CAPACITANCE BRIDGE ASSEMBLY
Wescon 1964 (August)

TYPE 1900-A WAVE ANALYZER
TYPE 1910-A RECORDING WAVE ANALYZER
New Wave Analyzer has 3 Bandwidths, 80-DB Dynamic Range (Arnold Peterson: April)

TYPE 1910-A RECORDING WAVE ANALYZER
New Talents for the Graphic Level Recorder (Martin W. Basch: September)

TYPE 1911-A RECORDING SOUND AND VIBRATION ANALYZER
New Talents for the Graphic Level Recorder (Martin W. Basch: September)

TYPE W20MT3A VARIAC® AUTOTRANSFORMERS
New Metered Variac® autotransformers (October-November)

TYPE W20HMT3A VARIAC® AUTOTRANSFORMERS
New Metered Variac® autotransformers (October-November)

PRINTED IN U.S.A.
